

DALIA ABDULLAH

AI ENGINEER • GENERATIVE AI • APPLIED MACHINE LEARNING

Expected B.Sc. 2027 • Seeking Graduate / Junior AI Roles • Open to Relocation to Dubai, UAE

CORE EXPERTISE

- Generative AI & LLM Systems
- Enterprise Solution Architecture
- Machine Learning & Forecasting
- NLP & Entity Intelligence
- API Integration & Validation
- Executive Dashboards & Demos

TECHNICAL STACK

Python	FastAPI
SQL	Scikit-learn
Ollama	GLiNER
Streamlit	REST APIs
Git / GitHub	React / Vite

EDUCATION

B.Sc. Computer Engineering Istanbul Bilgi University

Expected 2027 • Istanbul, Türkiye

Visiting Student, Summer 2026

University of Jordan • Amman

LANGUAGES

AR ARABIC Native

EN ENGLISH Fluent

TR TURKISH Beginner

FR FRENCH Intermediate

RECOGNITION

- Recognized by OFFTEC leadership as a standout intern.
- 3rd Place at STEM.
- High Honors Highschool Graduate (4.0 GPA)

LEADERSHIP

- Coordinated AI project tasks and technical workflows.
- Presented product demos and architecture to stakeholders.
- Supported onboarding and knowledge transfer within the AI team.

PROFESSIONAL DEVELOPMENT

- Project-based study in Generative AI, ML deployment, and enterprise API architecture.

PROFILE

Computer Engineering student and AI Engineer building enterprise-grade Generative AI products across LLM orchestration, NLP, backend systems, machine learning, and decision dashboards. Progressed from intern to AI Engineer at OFFTEC and now leads technical development of Nurova, an operational-intelligence platform that converts natural-language questions into validated enterprise workflows and executive-ready insights.

EXPERIENCE

OCT 2025 - NOW

AI Engineer

OFFTEC - Digital Transformation | Amman / Remote

- Lead architecture and development of Nurova, an LLM-powered enterprise analytics platform spanning branch, employee, service, ticket, traffic feedback, and monitoring domains.
- Integrated and regression-tested 70+ enterprise REST endpoints; built contract validation, payload normalization, endpoint health checks, and failover aware routing for production reliability.
- Implemented FastAPI services, Ollama-hosted LLM inference, GLiNER multilingual entity recognition, semantic endpoint planning, follow-up context, and structured answer rendering.
- Built ML prototypes for operational-risk classification, demand forecasting, and recommendations; translated outputs into dashboards, demos, and stakeholder-ready narratives.

JUN - SEP 2025

AI Engineering Intern

OFFTEC | Amman, Jordan

- Prototyped enterprise AI capabilities and operational analytics, earning a return offer to continue as an AI Engineer.
- Collaborated with technical and business teams to convert service-center requirements into testable AI workflows and product demonstrations.

SELECTED PROJECTS

NUROVA

Flagship enterprise LLM analytics platform

- Conversational intelligence across branches, employees, services, KPIs, and customer journeys.
- Combines semantic routing, entity extraction, API orchestration, contract validation, ML insights, and executive dashboards.
- Designed for multilingual enterprise questions, follow-up comparisons, ranking, bottleneck detection, and operational reporting.

STACK Python • FastAPI • Ollama • GLiNER • REST APIs • React/Vite

PREDEDU

Machine-learning student performance predictor

- Built an end-to-end Random Forest classification pipeline from preprocessing and feature encoding to model serialization.
- Deployed an interactive Streamlit application that predicts Low, Medium, or High performance and provides targeted recommendations.

STACK Python • Pandas • Scikit-learn • Random Forest • Streamlit

IMPACT SNAPSHOT

70+ enterprise APIs integrated & tested	3 ML solution tracks: risk, forecast, recommend	4 working languages across MENA & Türkiye
